PROFILE PAGE / DASHBOARD

Jane D. Researcher is a graduate student.

She leads a project at an Authorized Investigator's lab, and helps out with a couple other projects. On Databrary, she's given read-write access to all of her investigator's volumes, and additional investigator access to the project she leads.

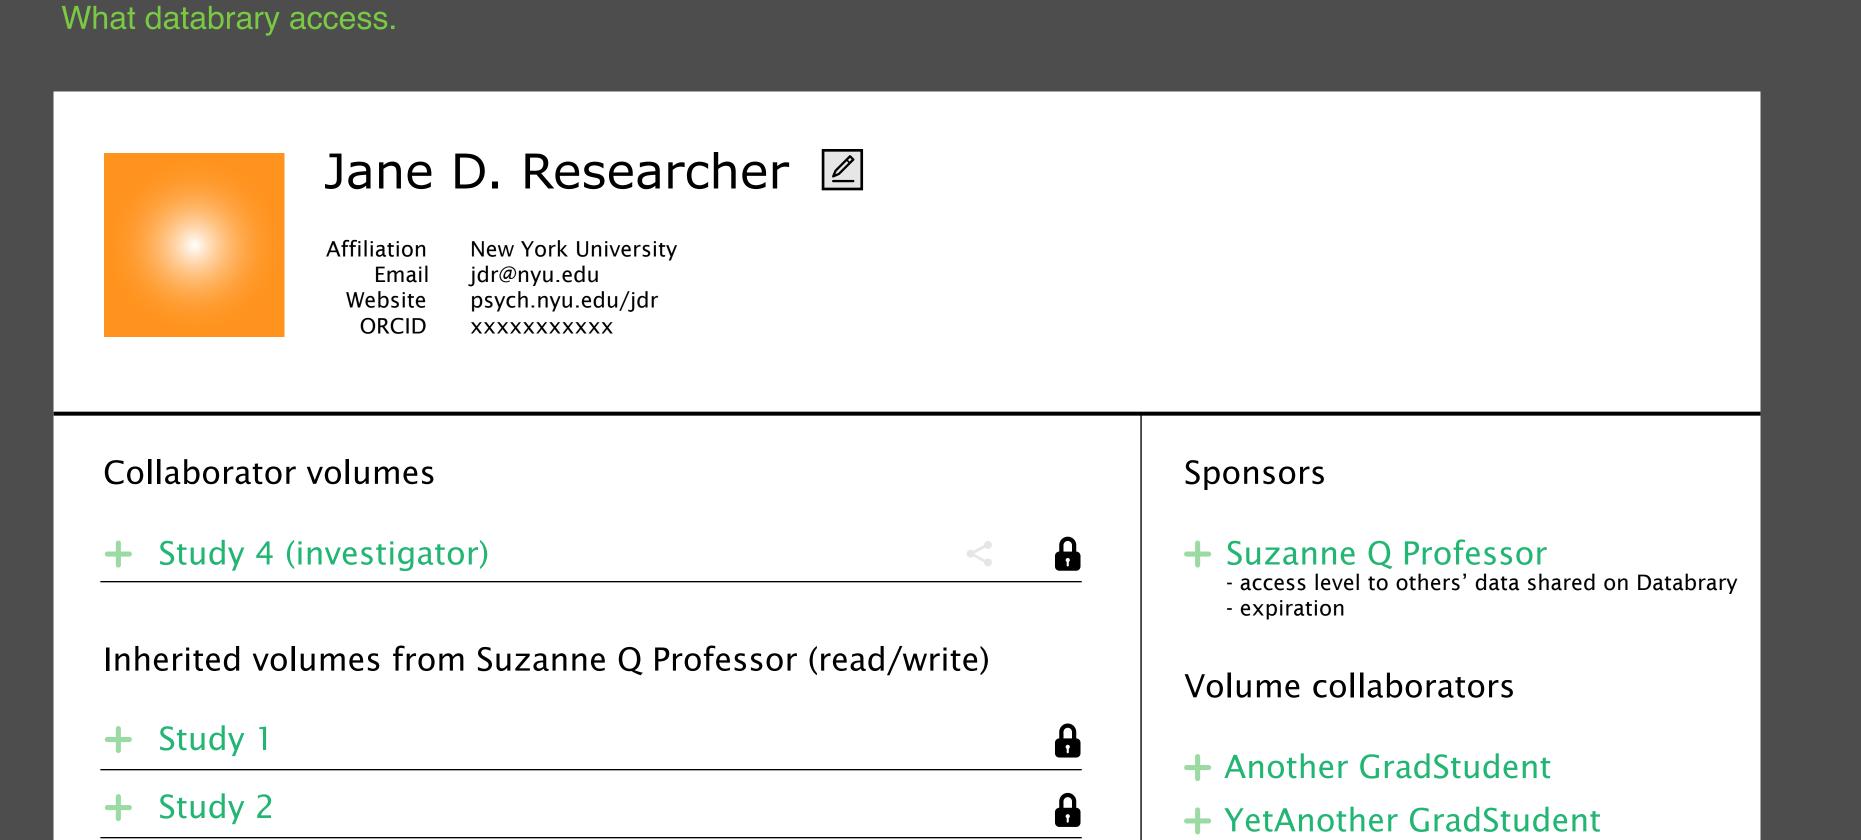

AIM: Easy access to all volumes Jane is associated with, and what access levels she has with all of them.

+ Study 3

Click plus signs to 'expand' and see who has what

access on this

volume

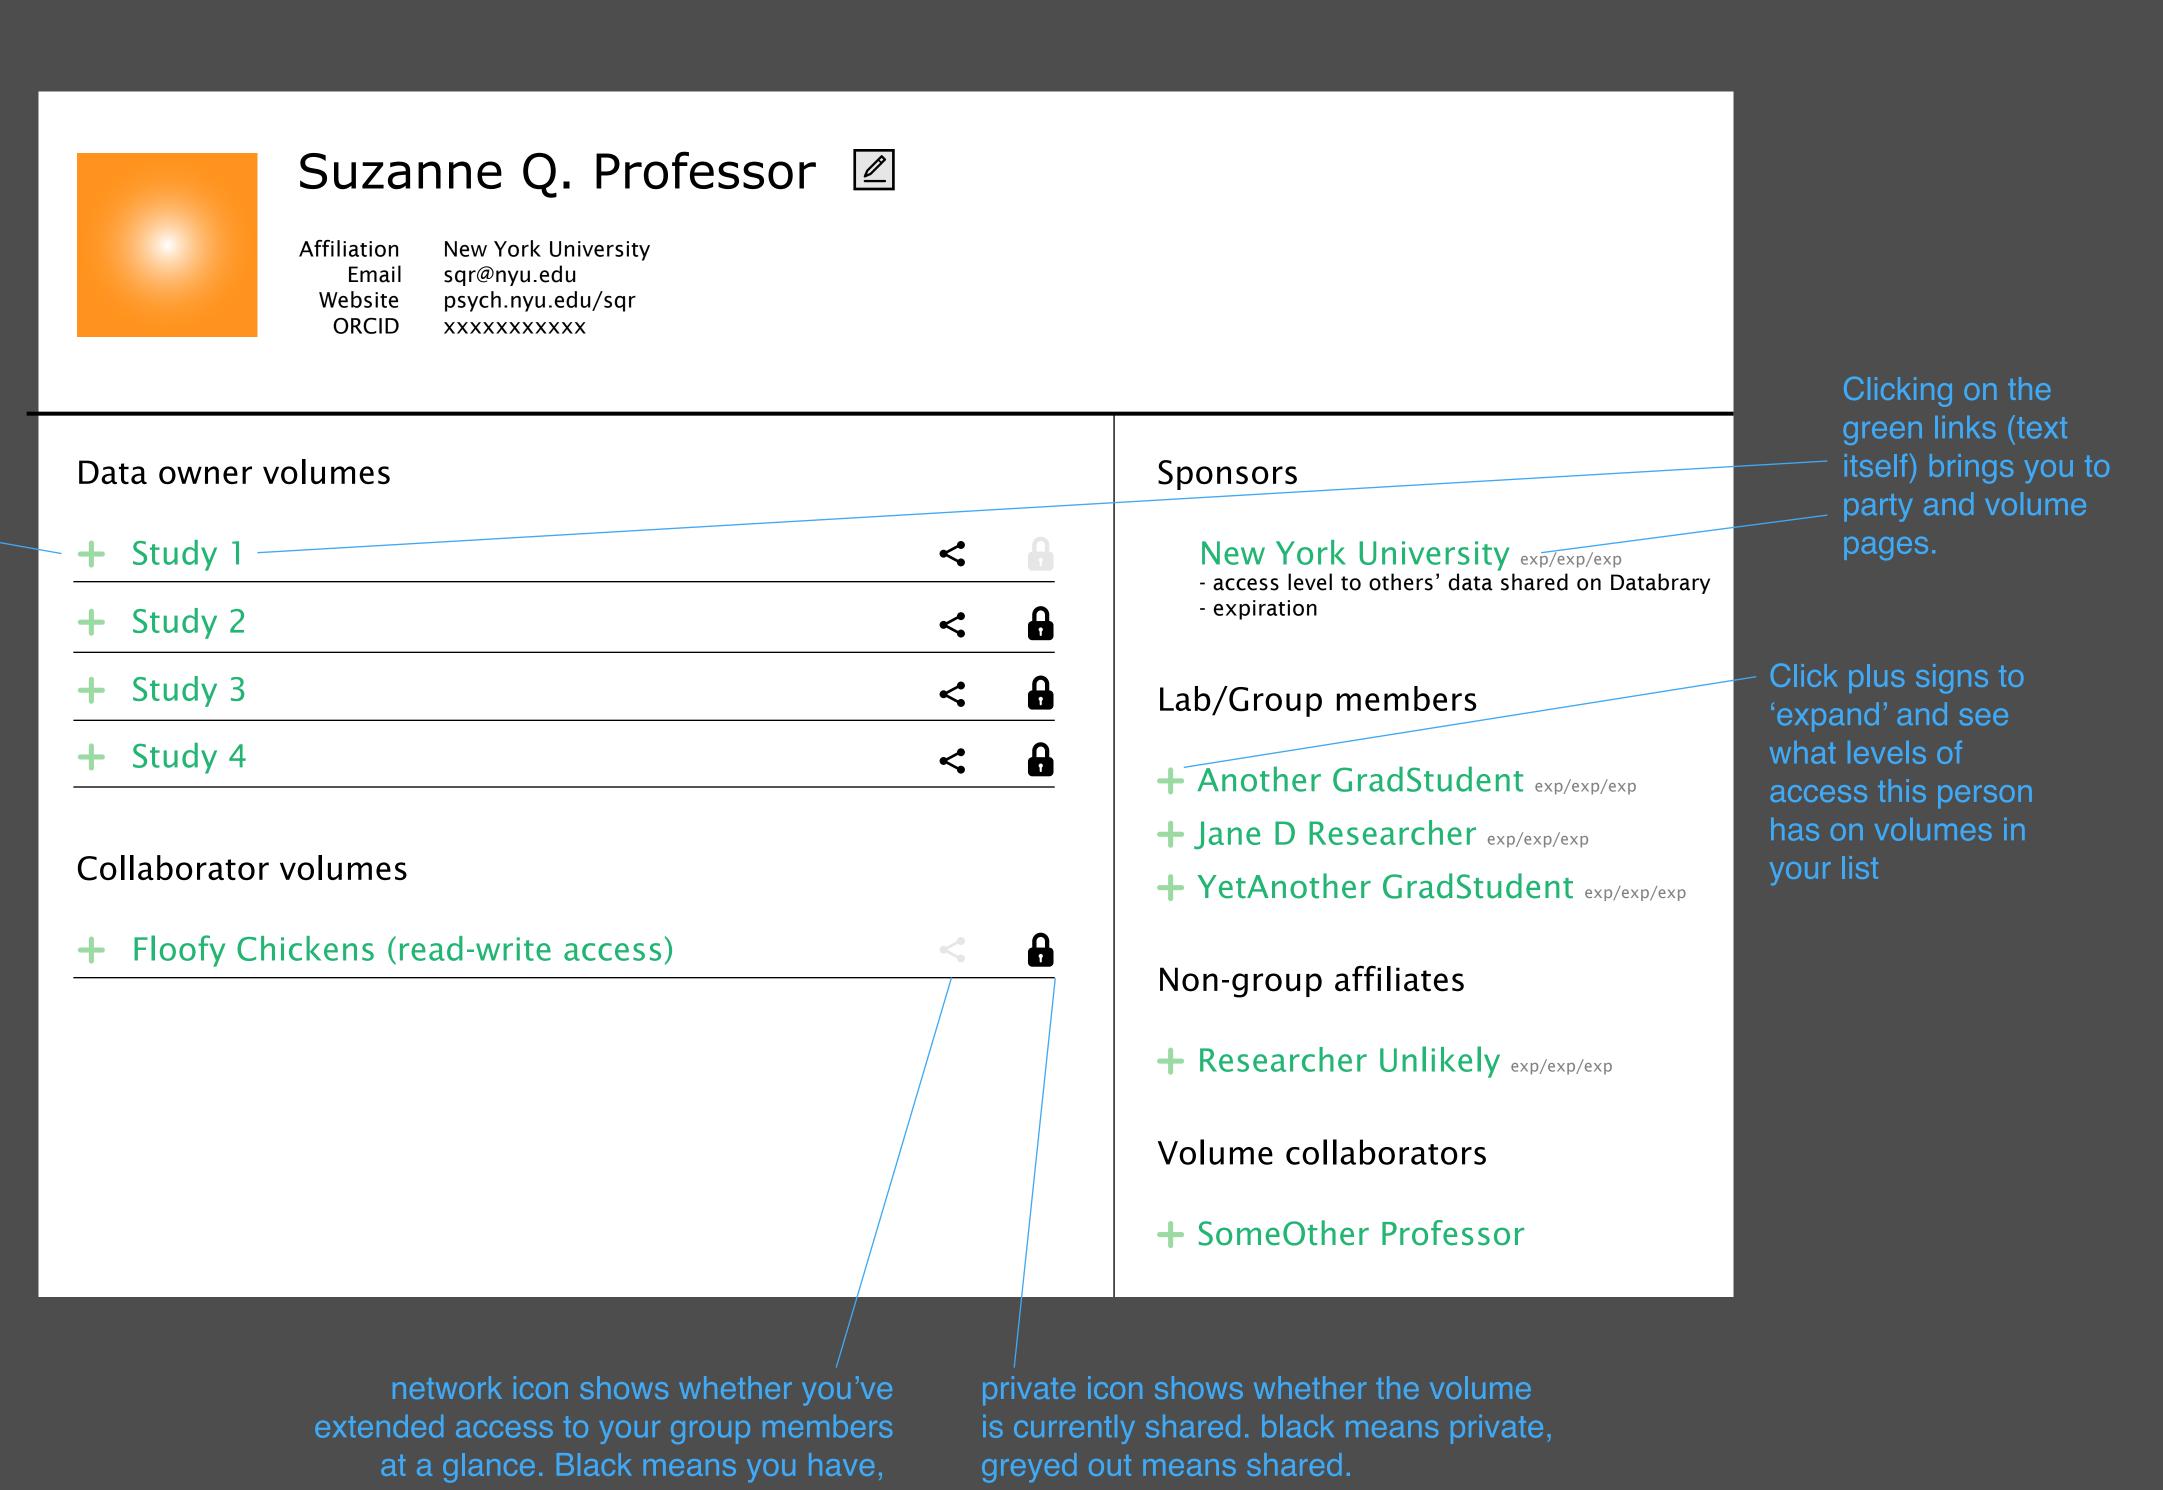

Suzanne Q. Professor is a principal investigator.

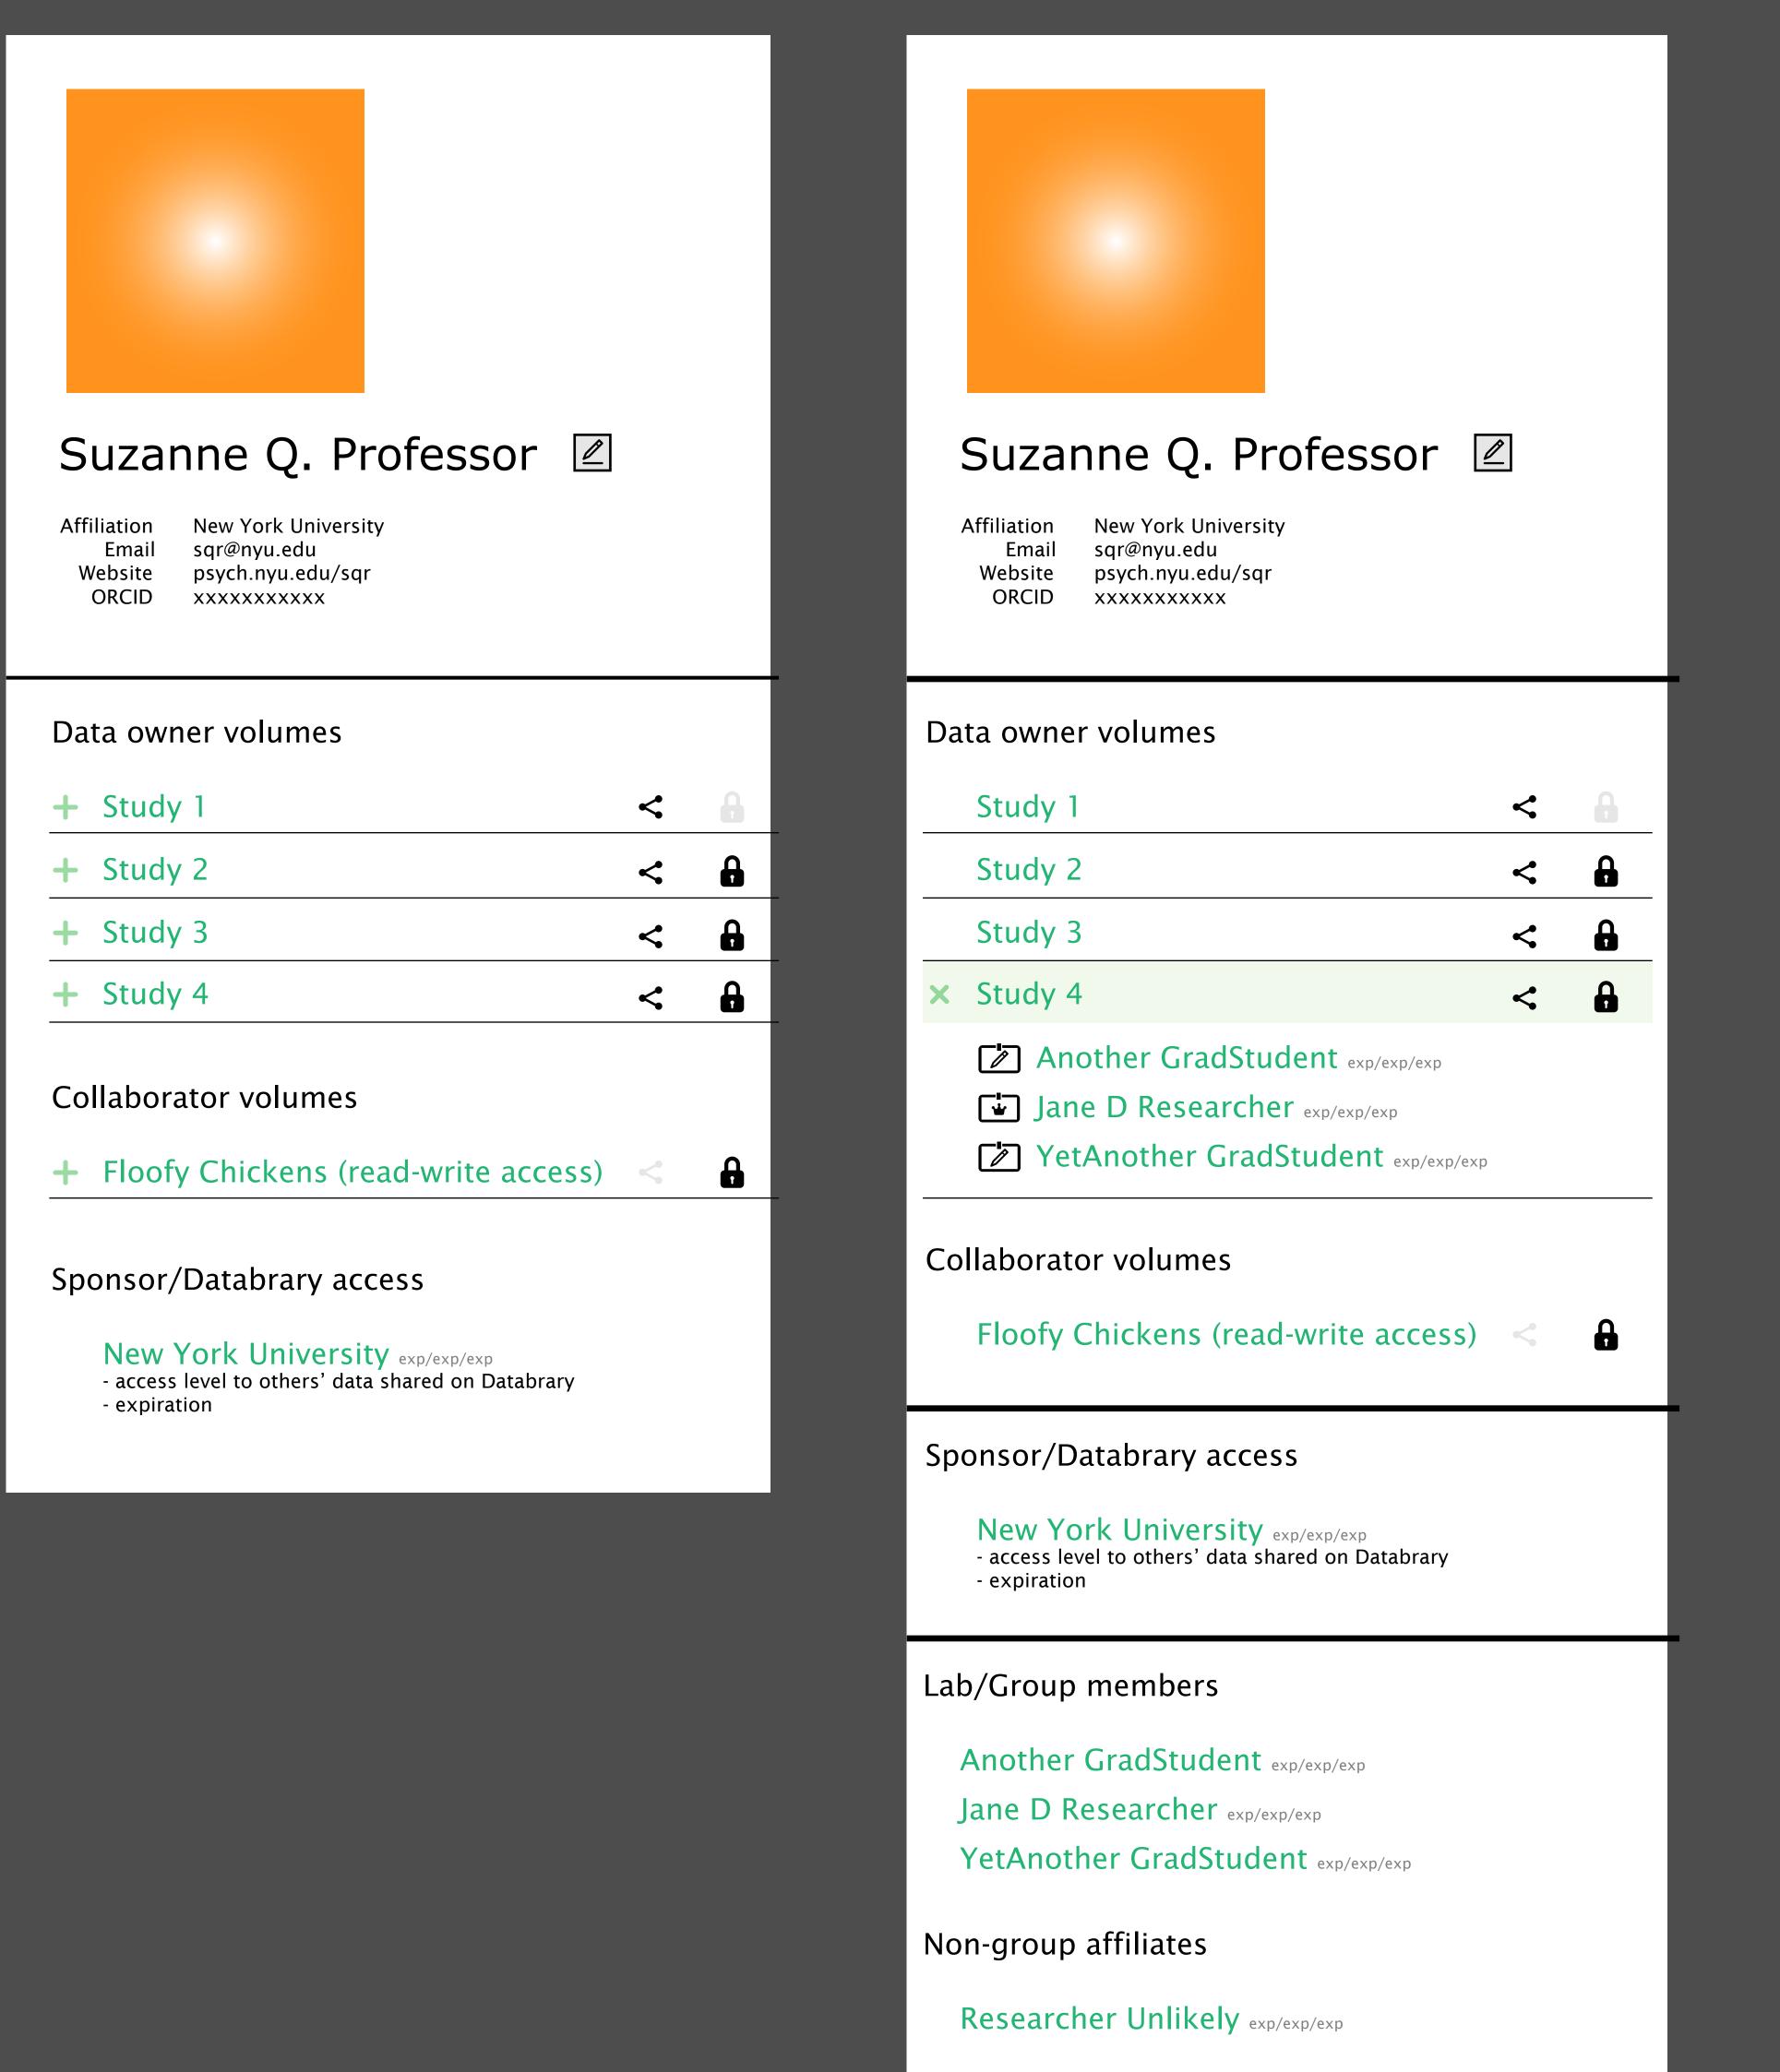

greyed out means not.

She has a couple graduate students working for her in the lab, and she collaborates with another PI on a study.
On Databrary, she's extended read-write access of her volumes to her graduate students, and additional investigator access to whoever leads the project by applying additional collaborator status.

AIM:
One page that shows volume access status (shared/private), who has access to what. Quick access to volume/party pages.
